Reminders

Wear your hat!

Please pull those hats out of the wardrobes and make sure they are labelled.

Nightly Reading

Keep up that excellent nightly reading habit and practising writing your heart and speed words.

Term 4 News

Welcome back to Term 4. Spring is here and the end of year is near.

This term in Literacy and Maths...

Continuing with stage 7.4 of LLLL and into the final stage of 7.5, students will be challenged with more alternative sounds and letter combinations and recognising when to appropriately use them in their writing. We have seen such fantastic progress in the last term and are excited to see what's to come. We will dive deeper into our reading comprehension abilities using a range of different texts. In Maths, we move into division and fractions and revisit our place value knowledge preparing for Year 2. We will continue to practise our number fluency by subitising and skip counting daily, and revisiting previously learnt topics.

RRRR

This term in our Resilience Rights and Respectful Relationships Unit students will be learning about Gender & Identity (Unit 7) and Positive Gender Relations (Unit 8).

Science- Earth and Space

Look Up and Around! This term students will learn and observe changes that occur in the sky and landscape, including short-term, seasonal and weather patterns. Later in the term, we will also explore some physical and chemical changes using light, sound and heat energy.
