19th September - Last Day Of Term 3
20th September - Curriculum Day

CAMP REMINDER

30th October - 1st
November at CYC Phillip
Island Adventure Resort

LITERACY

This term, we are diving into an exciting exploration of the Olympics through our Writing Curriculum. Our students will engage in a variety of activities, including Cafe Reading sessions and the application of the 12 comprehension strategies, to enhance their understanding and appreciation of the Olympic Games. We will delve into both Poetry and Report Writing, encouraging students to express their creativity and analytical skills. The anticipation is high as we look forward to discovering the rich history, inspiring stories, and global significance of the Olympics through these diverse and enriching educational experiences.

NUMERACY

This term in Mathematics students will delve into Multiplication, Area, Division, and Location. To cater to the diverse learning needs of our students, we will be implementing ability-based Maths groups, ensuring that each student receives the appropriate level of challenge and support. Through these activities, students will not only strengthen their mathematical skills but also gain a deeper understanding of how math plays a vital role in the world of sports. We are enthusiastic about the learning and growth that will take place as we connect mathematics with the dynamic and inspiring world of the Olympics.

HOMEWORK

Once again it was wonderful to see so many students complete their homework last term. Our focus areas included Reading and Comprehension, Spelling, Number and Algebra, and Statistics and Probability, all of which align with our curriculum. Homework offers students the chance to independently apply what they've learned in class, reinforcing their understanding and skills through practice. We are encouraging home reading each night, aiming for at least four nights a week. This practice will help strengthen students comprehension skills and increase their reading fluency. Students will still be given two weeks to complete their homework, with it due on a Friday.

LASTLY.....

If you have any concerns or issues please contact your classroom teacher via email or compass and make a time to chat with us.

Lets have a wonderful Term 3.

Regards

Mrs Bailey, Miss McGeary and Ms Luxford.
